Solutions

Coin comprehension - solutions

1. Up to 200 million.
2. Titan and Robbie.
3. Automated Guided Vehicles.
4. Titan.
5. Teacher check, but reasons may include:
   - because the robots can lift large amounts of coins
   - because there are less injuries to people and less accidents
   - because the robots work at night so everything is set up ready for the staff when they arrive in the morning
   - to entertain visitors!
6. The tracks are there because the AGVs take exactly the same path every time they move through the factory.
7. Teacher check (answer requires inferential thinking).
